Managing Director	Nneka Udo
Customer Success Lead	Ada Bello
Engineering Lead	Daniel Eze
Customer success contact	ada.bello@meridianharbor.example

Products and customers

The company offers TeamDesk for service coordination and LaunchPath for onboarding workflows. Subscription reporting uses NGN and states the period explicitly. The active customer count of 61 is a snapshot on 2026-10-15 and must not be treated as the number of new customers added during the quarter.

Project Atlas

Daniel Eze owns the customer onboarding release named Atlas. Its approved budget is NGN 9,600,000 and its target release date is 2026-11-06. Customer Success Lead Ada Bello coordinates pilot customers. She shares a name with the operations director at KoraBridge Logistics; the records describe different people.

Customer relationships

Sunvale Energy Systems is evaluating LaunchPath through a free pilot. There is no signed paid subscription or booked subscription revenue from Sunvale as of 2026-10-15. A pilot participant should not be presented as a contracted customer.

Document authority

MHS-OPS-002 defines support escalation targets. MHS-RPT-003 contains third quarter revenue and October release status. The profile supplies no employee phone numbers, passwords, bank details, or production credentials.
